Ali Ammar
Associate Software Engineer

As an Information Technology student, I'm focused on mastering programming, networking, cybersecurity, and databases. Through hands-on learning and projects, I'm developing skills in software development, system administration, and data analysis, while seeking internships for practical experience

"InfotechExpertX is a dynamic software startup specializing in web development services, with a core focus on WordPress and PHP technologies. Additionally, we provide expertise in modern web stacks like MERN, ensuring tailored solutions to meet diverse client needs.

Achievements/Tasks

- At InfotechExpertX, I specialize in crafting visually appealing and responsive webpages using HTML, CSS, and JavaScript. Collaborating closely with clients, I translate their requirements into compelling website interfaces. With a focus on user experience, I ensure cross-browser compatibility and optimal performance. Additionally, I contribute to improving our development processes and stay updated on emerging technologies to drive innovation.

Nexthome.pk: A prominent real estate company in Pakistan, offering comprehensive property solutions nationwide.

Achievements/Tasks

- As an Associate Software Engineer at Nexthome.pk, I contribute to the development of the company's new project, Assanhome.pk. My responsibilities include building and refining web components, implementing feature enhancements, and making code modifications to ensure project objectives are met efficiently. Leveraging my expertise in front-end development, I collaborate closely with the team to deliver high-quality software solutions. Through proactive problem-solving and attention to detail, I play a pivotal role in advancing the project's success and achieving organizational goals
